

# DGS XPRESS LAM XL-1500CM

## DGS Xpress LAM XL-1500CM (1.52m/60") Heat-Assist Cold Laminator

### OPTIMUM PERFORMANCE

- + Heat-assist cold lamination for bubble-free application.
- + High quality silicon rollers ensures beautiful finishes
- + Adjustable tension, speed, height for increased capacity and versatility
- + Fast processing with a speed up to 6m/min - 236"/min
- + Unique anti-tilt and anti-fold system ensures clear output

### EASE OF USE

- + Manual nip gap adjustment
- + Simple tension adjustment
- + Light weight drop-in supply shafts with auto-grip for easy loading
- + Foot pedal switch for pieces accurate application

### TECHNICAL SPECS

- + Max Laminating Width: (1520mm/60")
- + Max Laminating Thickness: (23mm/1")
- + Max Speed: Up to (6m/min - 236"/min)
- + Max Temp: 60°C/140°F
- + Rollers: Silicon (130mm diameter)
- + Pressure/Height Adjust: Hand crank
- + Heated Method: Infrared
- + Preheating Time: 5-10 min
- + Power Input: 1400w
- + KW/H: 0.8-1
- + Volt: 110/220v, 50/60Hz
- + Emergency Button: 1
- + Laser Eye: Yes
